EDUCATION

Bachelors of Technology in Computer Science & Engineering
Parul University

08/2022 - Present   *7.5 CGPA*

Diploma in Computer Engineering
Gujarat Technological University

06/2019 - 07/2022   *8.62 CGPA*

WORK EXPERIENCE

Data Analyst Intern
V-Ex Tech Solution

12/2024 - Present   *Vadodara, India*

Tasks
- Analyzed large datasets to derive actionable insights, supporting business decision-making.
- Used SQL to extract, clean, and manage data for reporting and analysis.
- Leveraged Python for automating data processes and improving workflow efficiency.
- Created interactive dashboards and reports using Power BI to enhance data visualization and decision-making.

Frontend Developer Intern
Connexion Technologies [CxT]

05/2021 - 05/2021   *Vadodara, India*

Tasks
- Designed a shopping app prototype with user authentication and seamless navigation.
- Created wireframes and interactive prototypes on Figma, iterating based on team feedback.
- Developed login and sign up pages using MongoDB, React. js , and Express. js .
- Conducted usability testing and refined designs based on user feedback.

SKILLS

Power BI Python SQL Data Analysis
Data Visualization Microsoft Excel Figma
HTML CSS

PERSONAL PROJECTS

Store Dashboard
- Developed an interactive store dashboard in Power BI to visualize sales, inventory, and customer trends.
- Integrated data sources and implemented filters for detailed, multi-dimensional analysis.
- Optimized dashboard layout for better insights and decision-making.

Youtube Studio Dashboard
- Designed a YouTube Studio dashboard using Power BI to analyze key metrics like views, watch time, and subscriber growth.
- Added interactive filters and visualizations for detailed performance tracking.
- Enabled actionable insights to optimize channel strategies effectively.

Asset Management System (Figma)
- Designed a prototype for an Asset Management System, focusing on asset tracking and inventory management.
- Created wireframes and interactive prototypes using Figma for a user-centered design.
- Conducted usability testing to identify issues and implement enhancements.

BuildBuilt (Figma)
- Designed a prototype for a construction e-commerce app with product catalog and order tracking features.
- Developed user-friendly wireframes and interactive prototypes in Figma for a seamless shopping experience.
- Collaborated with stakeholders and conducted usability testing to refine user experience based on feedback.
